## **About Corinthian Schools, Inc.**

This school is a part of Corinthian Schools, Inc. (CSi). CSi was formed in 1995 to own and operate schools across the nation that focus on high demand and specialized skills. CSi is continually seeking to provide the kind of training programs that will best serve the changing needs of students, business and industry.

With headquarters in Santa Ana, California and schools in various states, CSi provides job-oriented training in high-growth, high-technology areas of business and industry. The curricular focus is on allied health, business, and other programs that have been developed based on local employer needs. Students use modern equipment and facilities, similar to the kind they can expect to find on the job. By emphasizing focused training, CSi provides people entering or re-entering today's competitive market with practical, skill-specific training vital to their success.

Corinthian Schools, Inc. is dedicated to providing vocational and technical training that meets the current needs of business and industry. Under CSi ownership, the school will maintain its long-standing reputation for innovation and high-quality private vocational education.

## **School History and Description**

The School opened in 2004 as a branch of Bryman College-El Monte, CA. The school is conveniently located in downtown Chelsea just across the Tobin Bridge from the city of Boston. The modern air-conditioned facility is designed for training students for the working world. The attractive facility has approximately 28,000 square feet and includes two computer laboratories, two medical laboratories, two massage therapy laboratories, one pharmacy technician laboratory, student lounge, resource center, bookstore and administrative areas. This institution, the facilities it occupies and the equipment it uses comply with all federal, state and local ordinances and regulations, including those related to fire safety, building safety and health.

## **Student Disability Services/Accommodations**

Corinthian Schools, Inc. has an institutional commitment to provide equal educational opportunities for qualified students with disabilities in accordance with state and federal laws and regulations, including the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973. To provide equality of access for students with disabilities, the Institute will provide accommodations and auxiliary aids and services to the extent necessary to comply with state and federal laws. For each student, these accommodations and services will specifically address the functional limitations of the disability that adversely affect equal educational opportunity. Applicants or students who would like to request disability service/accommodations must make a request to the Campus President/Campus Disability Services Coordinator.

## **Educational Philosophy**

The Corinthian Schools, Inc. philosophy is to provide quality programs that are sound in concept, implemented by a competent and dedicated faculty and geared to serve those seeking a solid foundation in knowledge and skills required to obtain employment in their chosen fields. The programs emphasize hands-on training, are relevant to employers' needs and focus on areas that offer strong long-term employment opportunities. To offer students the training and skills that will lead to successful employment, the schools will:

- 
- Continually evaluate and update educational programs;
  - Provide modern facilities and training equipment;
  - Select teachers with professional experience in the vocations they teach and the ability to motivate and develop students to their greatest potential; and
  - Promote self-discipline and motivation so that students may enjoy success on the job and in society.

## Statement of Non-Discrimination

Corinthian Schools, Inc. does not discriminate on the basis of sex, age, disability, race, creed or religion in its admission to or treatment in its programs and activities, including advertising, training, placement and employment. The school president is the coordinator of Title IX - the Educational Amendments Act of 1972, which prohibits discrimination on the basis of sex in any education program or activity receiving federal financial assistance. All inquiries or complaints under the sex discrimination provisions of Title IX should be directed to the school president. The school president must act equitably and promptly to resolve complaints and should provide a response within seven working days. Students who feel that the complaint has not been adequately addressed should contact the Student Help Line, (800) 874-0255.

## Approvals and Memberships

This school voluntarily undergoes periodic evaluations by teams of qualified examiners, including subject experts and specialists in occupational education and private school administration.

- Licensed by the Commonwealth of Massachusetts, Department of Education.

School approvals and memberships are displayed in the lobby. The school president can provide additional information.

## Modular Programs

A Modular Program is a complete body of prescribed subjects or studies that is divided into periods of instruction approximately four to five weeks in length. Programs are offered in-residence.

Module descriptions include the module number, title, synopsis, a listing of the lecture/theory hours, laboratory or externship hours and credit units. For example, the listing "40/40/6.0" indicates that the module consists of 40 hours of lecture/theory, 40 hours of laboratory work or externship work and provides a total of 6.0 credit units.

### Massage Therapy Program

#### Diploma Program - 9 Months (Day and Evening)

720 Clock Hours/57.0 Credit Units

DOT: Massage Therapist 334.374 010

The Massage Therapy program is designed to provide the student with the necessary tools required to successfully enter the massage industry. Whether it is a day spa, physician's office, health club, or resort, graduates of this program will have acquired all the tools needed to thrive in this exciting new career.

This 720-hour program consists of nine self-contained 80-hour units of learning called modules. Covered in these modules are the introduction and principles and practices of massage therapy, massage fundamentals, massage and bodyworks, anatomy and physiology, business and success skills, and health and wellness. Upon the successful completion of this program, graduates will have received the education necessary to attain a career in one of the most engaging and exciting fields today. With the tools of a well-trained massage therapist, the graduate may work in an entry level position as a massage therapist in a variety of health care facilities, including but not limited to a massage clinic, hospital, chiropractic office, nursing home, health club, spa, resort, or in private practice. Therapists may be employed in urban, suburban, and rural areas.

The Massage Therapy program provides the student with the theory and hands-on applications required to perform the following tasks:

- Be knowledgeable and competent in the performance of various forms and types of massage and in the use of hydrotherapy.
- Be knowledgeable in the study of anatomy and physiology and as such, be familiar with exercise programs and therapeutic massage that can help in caring for conditions affecting different body systems.
- Be knowledgeable and competent in the performance and use of techniques to help specific problems such as neck, back, sciatic pain, relaxation, stress reduction, and muscle spasms.
- Be acquainted and competent in various allied modalities currently being practiced in the field of massage therapy.

Upon successful completion of the massage therapy program graduates will be awarded a diploma in massage therapy.

## Program Outline

Module	Module Title	Clock Hours	Credit Units
Module A	Introduction to Massage Therapy	80	6.0
Module B	Massage Fundamentals	80	7.0
Module C	Swedish Massage, Deep Tissue Massage, and Neuromuscular Therapeutic Techniques	80	6.0
Module D	Sports Massage, Reflexology, and Shiatsu Massage	80	6.0
Module E	Polarity and Non-Traditional Massage Therapies	80	6.0
Module F	Anatomy and Physiology for the Massage Therapist	80	6.0
Module G	Clinical Massage Therapy	80	6.0
Module H	Business and Success Skills	80	7.0
Module I	Health and Wellness	80	7.0
	<b>Program Total</b>	<b>720</b>	<b>57.0</b>

## Module Descriptions

### Module A - Introduction to Massage Therapy

40/40/6.0

In this module, students will be introduced to the basic principles and practices of massage therapy. Subjects covered include:

Effects and benefits of massage  
Introduction to massage therapy  
Requirements for the practice of therapeutic massage  
Equipment and products  
Sanitary and safety practices  
The consultation

### Module B - Massage Fundamentals

60/20/7.0

In this module, students will gain an understanding of massage fundamentals. Subjects covered include:

- Basic massage fundamentals
- Contemporary therapeutic massage applications

### Module C - Swedish Massage, Deep Tissue Massage, and Neuromuscular Therapeutic Techniques

40/40/6.0

In this module, students will learn about and practice different types of therapeutic massage. Subjects covered include:

- Swedish massage
- Joint mobilization and range of motion (ROM)
- Joint mobilization testing and utilization
- Massage for nursing and healthcare
- Massage for active adults
- Pre-natal, post-natal, and infant massage

- 
- 
- Lymphatic massage
  - Deep tissue massage
  - Trigger point therapy
  - Neuromuscular therapy (NMT)
  - Jostling and shaking

#### **Module D - Sports Massage, Reflexology, and Shiatsu Massage**

40/40/6.0

In this module, students will learn about and practice different types of therapeutic massage. Subjects covered include:

- Sports massage
- Sports pre-event massage
- Sports post-event massage
- Active stretching and muscle energy techniques (MET)
- Passive positioning techniques
- Understanding the concept of pain
- Chair massage
- Intuitive massage
- Reflexology
- Theories and practices of Eastern modalities of massage
- Shiatsu

#### **Module E - Polarity and Non-Traditional Massage Therapies**

40/40/6.0

In this module, students learn about and practice different types of therapeutic massage. Subjects covered include:

- Polarity
- Combining polarity with other massage therapies
- Advanced therapeutic massage strategies (ATMS)
- Somatic therapies
- Therapeutic touch
- Reiki
- Craniosacral therapy
- Intentionality
- Strategies and customization

#### **Module F - Anatomy and Physiology for the Massage Therapist**

40/40/6.0

In this module, students will gain an overall understanding of anatomy and physiology as it relates to massage therapy. Subjects covered include:

- Overview of anatomy and physiology
- Cells and tissues
- Anatomical positions
- Human body systems
- Effects, benefits, and indications of massage
- Contraindications of massage
- Pathology, disease, and injury-related conditions
- Advanced assessment skills
- SOAP charting
- Soft tissue structures, functions, and treatments

Non-Western anatomy

---

---

### **Module G - Clinical Massage Therapy**

40/40/6.0

In this module students will gain an overall understanding of the skills involved in clinical massage therapy.

Subjects covered include:

- Review of applied anatomy and physiology of the muscular and skeletal systems
- Rehabilitative assessment
- Range of motion
- Swiss ball exercises
- Ultrasound exercises
- Ultrasound therapy
- Hydrotherapy and cryotherapy
- Electrical stimulation
- Rehabilitation and clinical massage therapy

### **Module H - Business and Success Skills**

60/20/7.0

In this module, students will gain an overall understanding of the skills involved in being both a successful business owner and a massage therapist. Subjects covered include:

- Negotiations and contracts
- Financial planning for massage professionals
- Time management skills
- Public presentations
- Interpersonal communications
- Project management skills
- Creating a business plan
- Professional boundaries
- Guided imagery and creative visualization
- Computer skills and the Internet
- Anger and obstacle management
- Insurance billing and reimbursement
- Customer service
- Listening skills
- Managing change

### **Module I - Health and Wellness**

60/20/7.0

In this module, students will learn about and practice skills involved in working in spa services and in working with specific strategies to enhance good health and wellness. Subjects covered include:

- Face and scalp massage
- Hot and cold hydrotherapy
- Swedish shampoo
- Salt rub
- Working in a spa environment
- Spa treatments and services
- Spot treatments and cellulite treatments
- Aromatherapy, lubricants, oils, and tropical applications
- Exercises, stretching, and breathing and relaxation techniques
- Qi Gong and Tai Chi exercises
- Meditation
- Wellness strategies for massage professionals
- Diet and nutrition
- Psychology and wellness
- The mind/body connection
- First aid and cardiopulmonary resuscitation (CPR)

---

---

## Medical Assisting

### Diploma Program - 8 Months (Day and Evening)

720 Clock Hours/47.0 Credit Units

DOT: Medical Assistant 079.367-010

In recent years the medical assisting profession has become indispensable to the health care field. Not only have physicians become more reliant on medical assistants, but their services are also being requested by hospitals, clinics and nursing homes, as well as medical supply businesses, home health agencies, insurance companies and pharmaceutical companies. Medical assistants have become an important part of the health care team and their responsibilities continue to expand as the need for their services grows.

The objective of the Medical Assisting Program is to provide graduates with the skills and knowledge that will enable them to qualify for entry-level positions as medical assistants. Since medical assistants are trained in both administrative and clinical procedures, they are capable of filling a variety of entry-level positions, including clinical or administrative assistant, medical receptionist and medical insurance billing and coding specialists.

This training program is divided into seven learning units called modules. Each module, which consists of a theory section, a clinical/laboratory section, and a computer/keyboarding section, stands alone as a unit of study and is not dependent upon previous training. If students do not complete any portion of a module, the entire module must be repeated. Students may enter the program at the beginning of any module and continue through the sequence until all modules have been completed. Upon successful completion of the seven classroom modules and the comprehensive written and laboratory skills exam, students participate in a 160-clock-hour externship.

In each module the students study subject-related medical terminology and develop keyboarding skills on a computer and electric typewriter. Successful completion of the Medical Assisting Program, including the classroom training and externship, is acknowledged by the awarding of a diploma.

## Module Descriptions

### Module A - Patient Care and Communication

40/40/6.0

Module A emphasizes patient care, including examinations and procedures related to the eyes and ears, the nervous system, and the integumentary system. Terminology related to these systems is also covered. Students will also have the opportunity to work with and review patient charts, and perform additional front office skills related to records management and appointment scheduling, as well as perform clinical patient care skills. Students will also study essential medical terminology, build on their computer keyboarding and word processing skills, and become familiar with the self-directed job search process.

### Module B - Clinical Assisting and Pharmacology

40/40/6.0

Module B stresses the importance of asepsis and sterile technique in today's health care environment. Students learn about basic bacteriology and its relationship to infection and disease control. Anatomy and physiology of the muscular system, and common disorders related to it are also taught. Basic therapeutic drugs, their use, classification and effects on the body are covered. Students become familiar with the principles of administering medication and prepare medication for administration by various methods, as well as prepare for and assist with minor office surgical procedures. They will also demonstrate how to prepare patients for specific examinations, including positioning and draping techniques. They will study essential medical terminology, building on their computer keyboarding and word processing skills, and become familiar with the self-directed job search process.

### Module C - Medical Insurance, Bookkeeping, and Health Sciences

40/40/6.0

Module C introduces students to office emergencies and first aid, with an emphasis being placed on bandaging techniques. Anatomy and physiology of the digestive system are presented in conjunction with nutrition and health practices. Students also study medical insurance, billing, and coding, and bookkeeping procedures which are essential to the medical office. Students check vital signs, obtain blood samples, and prepare and administer intramuscular injections. They will also study essential medical terminology, build on their computer keyboarding, and word processing skills, and become familiar with the self-directed job search process.

### Module D - Cardiopulmonary and Electrocardiography

40/40/6.0

Module D examines the circulatory and respiratory systems, including the structure and function of the heart and lungs. Students learn about the electrical pathways of the heart muscle in preparation for applying electrocardiography (ECG or EKG) leads and recording a 12-lead electrocardiogram. A cardiopulmonary resuscitation (CPR) course also teaches students how to respond to cardiac emergencies. Students check vital signs and differentiate between normal values for pediatric and adult patients. They obtain blood samples, and prepare syringes and medications for administration. Students study essential medical terminology, build upon their computer keyboarding and word processing skills, and become familiar with the self-directed job search process.

### Module E - Laboratory Procedures

40/40/6.0

Module E introduces laboratory procedures commonly performed in a physician's office. Students learn specimen identification, collection, handling and transportation procedures, and practice venipuncture and routine diagnostic hematology. Maintenance and care of laboratory equipment and supplies are discussed. Anatomy and physiology of the renal system, including its structures and functions, and common disorders related to it, are also taught. Students perform common laboratory tests, check vital signs, and perform selected invasive procedures. Students study essential medical terminology, build upon their computer keyboarding and word processing skills, and become familiar with the self-directed job search process.

---

---

**Module F - Endocrinology and Reproduction****40/40/6.0**

Module F covers general anatomy and physiology, including an overview of the study of biology and the various body structures and systems. This module also identifies and examines the basic structural components and functions of the skeletal, endocrine and reproductive systems. Students learn about child growth and development and assisting in a pediatric office. They check vital signs, assist with diagnostic examinations and laboratory tests, instruct patients regarding health promotion practices, and perform certain invasive procedures. Student study essential medical terminology, build on their computer keyboarding and word processing skills, and become familiar with the self-directed job search process.

**Module G - Medical Law, Ethics, and Psychology****40/40/6.0**

Module G covers concepts related to the medical office and preparing for the day. Students are introduced to medical office safety, security, and emergency provisions, and how they can best be dealt with. Also covered are office management and the use of office equipment. Also covered is mobility assistance and terminology related to basic psychology principles, the history of medicine and the evolution of the profession of medical assisting, medical law and ethics, and physical therapy and special needs concepts. Students check vital signs, obtain blood samples, and prepare and administer intramuscular injections. Students will also have the opportunity to build upon their computer keyboarding and word processing skills, and become familiar with the self-directed job search process.

**Module X - Externship****0/160/5.0**

Upon successful completion of classroom training, medical assisting students participate in a 160-hour externship at an approved facility. This provides externs an opportunity to work with patients and apply the principles and practices learned in the classroom. Externs work under the direct supervision of qualified personnel in participating institutions and under general supervision of the school staff. Externs will be evaluated by supervisory personnel at 80 and 160-hour intervals. Completed evaluation forms are placed in the students' permanent record. Medical assisting students must successfully complete their externship in order to fulfill requirements for graduation.

---

## Pharmacy Technician Program

**Diploma Program - 8 Months (Day and Evening)**

**720 Clock Hours/58.0 Credit Units**

**DOT: Pharmacy Technician 074.382 010**

Pharmacy services have expanded and grown at an accelerated rate, paving a new way for Pharmacy Technicians. It cannot be over emphasized how significant pharmacy technicians have become and the substantial part they play in the healthcare work force. As pharmacy services continue to grow with new services being offered, new drugs entering the market, and comprehensive drug information becoming a necessity, the need for highly trained pharmacy technicians increases. Many of the traditional pharmacy functions once performed by pharmacists are now being performed by pharmacy technicians. Today's pharmacy technician has assumed a position that supports and enhances the progressive direction taken by pharmacy. The technician has also become the key person in assuring the smooth uninterrupted functioning of traditional pharmacy services. Pharmacy is a dynamic field requiring an ongoing learning process. Graduates from this training program will become active participants in this growing field by exhibiting competence through knowledge and skills learned through the college.

This 720-hour program prepares the student with both administrative and clinical skills for a position in retail, hospital, clinic and home IV facilities. Upon completion, the pharmacy technician will be awarded a diploma and be able to competently perform tasks assigned or delegated by a supervising pharmacist in an entry-level position. The program is comprised of eight modular units of learning. Seven of these modules are made up of 80 hours of combined theory and laboratory time. The last module, referred to as an externship, consists of 160 hours. During the externship, which is completed at the end of the classroom portion of the program, students are given the opportunity to observe and become part of the pharmacy team, as they gain hands-on practice working side-by-side with pharmacists and other health care professionals.

The Pharmacy Technician program provides the student with the theory and hands-on applications required to perform the following tasks:

- Demonstrate an understanding of the basic principles and practices of pharmacy technology, including how it relates to the patient, the health care facility, and other members of the health care delivery team.
- Recognize, spell, define, and use appropriate medical terminology, words, and abbreviations as part of the study of pharmacology, anatomy and physiology, microbiology, and infection control.
- Demonstrate an understanding of regulatory standards and law and ethics as each relates to the field of pharmacy.
- Use appropriate pharmacy skills, including those required for administrative aspects of pharmacy technology and basic pharmacy applications, pharmaceutical calculations, pharmacy operations, and pharmacology.
- Discuss and be able to demonstrate how to work with pharmaceutical dosage forms.
- Demonstrate competency in performing pharmaceutical calculations, including conversions, working with pediatric dosages, parenteral and IV dosages, admixtures, and compounding dosages.

Successful completion of the Pharmacy Technician Program, including the classroom training and externship, is acknowledged by the awarding of a diploma.

### Module Descriptions

#### Module A - Introduction to Pharmacy

80/0/8.0

In this module, students will be introduced to the basic principles and practices of pharmacy technology. Subjects covered include:

- Introduction to pharmacy and the healthcare system
- Historical development in pharmacy and healthcare
- Organizational structure and function of the hospital
- Home health care and long-term care
- Regulatory standards in pharmacy practice
- The profession of pharmacy and law and ethics

#### Module B - Administrative Aspects of Pharmacy Technology and Basic Pharmacy Applications

80/0/8.0

In this module, students will gain an understanding of the administrative aspects and hands-on applications involved in working in a pharmacy. Subjects covered include:

- Use of the policy and procedure manual
- Materials management of pharmaceuticals
- The pharmacy formulary system
- Computer applications in drug-use control
- Receiving and processing medication orders and medication orders
- Preparation and utilization of patient profiles
- Handling medications
- Storage and delivery of drug products
- Records management and inventory control
- Compensation and methods of payment for pharmacy services

---

---

### **Module C - Professional Aspects of Pharmacy Technology**

80/0/8.0

In this module, students will be introduced to the professional aspects of working in pharmacy technology. Subjects covered include:

- Review of basic math and algebra
- Pharmaceutical and medical terminology and abbreviations
- Apothecary symbols
- Pharmaceutical dosage forms
- Review of basic math and algebra

### **Module D - Pharmaceutical Calculations**

60/20/7.0

In this module, students will be introduced to pharmaceutical calculations. Subjects covered include:

- Review of math and algebra
- Systems of measurements
- Conversions between different systems of measurements
- Pharmaceutical calculations of drug dosages
- Extemporaneous compounding and admixtures
- Parenteral and IV medications

### **Module E - Pharmacy Operations**

60/20/7.0

In this module, emphasis is placed on the role and responsibilities of the pharmacy technician, as well as a study of general operations of pharmacies at different settings. Subjects covered include:

- Customer service
- Record keeping
- Purchasing procedures, pricing and merchandising
- Pricing reimbursement techniques
- Safety in the workplace
- Using computers in the pharmacy
- Communications and interpersonal relations within the pharmacy
- Drug distribution systems
- Ambulatory and institutional pharmacy practice
- Fundamentals of reading prescriptions

### **Module F - Anatomy and Physiology and Pharmacokinetics**

80/0/8.0

In this module, students will concentrate on the terminology and body systems associated with specific medications.

- Subjects covered include:
- Organization of the body, cells, tissues, glands, and membranes
  - Basic chemistry and the human body
  - Medical terminology and anatomy and physiology
  - Relationship of pharmacology to anatomy and physiology
  - Disorders and abnormalities affecting the body
  - Prescription and over-the-counter (OTC) drugs affecting the body
  - Actions and use of drugs on specific body systems
  - Vital signs, first aid, and cardiopulmonary resuscitation (CPR)

---

**Module G - Pharmacology****60/20/7.0**

In this module, students will become familiarized with all aspects of drugs, their actions and uses, and their administration. Subjects covered include:

Dosage forms and administration of drugs

Food-drug interactions

Clinical applications of drug categories

Drug administration

Physician's orders and medication errors

Actions and use of drugs on specific body systems

Administration of medications

Drug distribution systems

Computerization and pharmacology

**Module X - Clinical Externship****0/160/5.0**

This 160-hour course is designed to provide the student with supervised, practical hands-on and observational experiences in the working pharmacy. Students will be expected to gain experiences in either a hospital pharmacy or a community (retail) pharmacy. Students will gain exposure to "on-the-job" experiences and training in the pharmacy setting and practice of skills and gaining experiences in all aspects of drug preparation and distribution utilized by participating sites.

---

---

## Admissions

### Requirements and Procedures

Students should apply for admission as soon as possible in order to be officially accepted for a specific program and starting date. To apply, students should complete an application form and bring it to the school, or call for a priority appointment to visit the school and receive a tour of its facilities.

All applicants are required to complete a personal interview with an admissions representative. Parents and spouses are encouraged to attend. This gives applicants and their families an opportunity to see the school's equipment and facilities, meet the staff and faculty, and to ask questions relating to the campus, curriculum, and career objectives. Personal interviews also enable school administrators to determine whether an applicant is acceptable for enrollment in the program.

Once an applicant has completed and submitted the Enrollment Agreement, the school reviews the information and informs the applicant of its decision. If an applicant is not accepted, all fees paid to the school are refunded.

The school follows an open enrollment system. Individuals may apply up to one year in advance of a scheduled class start. The following items must be completed at the time of application:

- Administration and evaluation of an applicable entrance examination;
- Enrollment Agreement (if applicant is under 18 years of age it must be signed by parent or guardian); and
- Financial aid forms (if applicant wishes to apply for financial aid).

The school reserves the right to reject students if the items listed above are not successfully completed.

This campus does not offer training in English as a Second Language.

Prospective students who have a high school diploma or a recognized equivalency certificate (GED) are required to:

1. Furnish proof by providing the school with the diploma, official transcript or GED certificate, a copy of which will be placed in the student file, and
2. Achieve a passing score on a nationally normed, standardized test. This test measures an applicant's basic skills in reading and arithmetic. Applicants who fail the test can be re-tested using a different nationally normed, standardized test.

Applicants who do not have a high school diploma, official transcript or GED certificate may also apply. However, the number of students enrolled under the Ability to Benefit Provision is limited. The school reserves the right to reject applicants based on test scores and ability to benefit limitations, or as necessary to comply with any applicable local, state or federal laws, statutes or regulations.

Applicants enrolling under the Ability to Benefit provision are required to achieve a passing score on an independently administered, standardized, nationally recognized test that is approved by the U.S. Department of Education. This test is designed to measure prospective students' ability to benefit from the course of instruction. Applicants who pass this test have fulfilled the school's entrance test requirements. Applicants who fail the test can be retested using the test developer's guidelines. Students must begin classes within one year of their test date. Students who withdraw after starting school, or are terminated by the school and re-enter more than one year after their test date, must take the test again.

---

---

## **Allied Health Programs**

Students entering an allied health program must also complete a Health Notice prior to the start of the training program. Health Notice forms are provided by the school.

## **Credit for Previous Education or Training**

The Education Department will evaluate previous education and training that may be applicable to an educational program. If the education and/or training meet the standards for transfer of credit, the program may be shortened and the tuition reduced accordingly. Students who request credit for previous education and training are required to provide the school with an official transcript from the educational institution providing the training prior to beginning training at Bryman Institute.

---

---

## Administrative Policies

### Grading

The progress and quality of students' work is measured by a system of letter grades and grade percentages. The meaning of each grade and its equivalent percentage is as follows:

Allied Health Programs		
Grade	Meaning	Percentage
A	Excellent	100-90
B	Very Good	89-80
C	Good	79-70
F	Failing	69-0
I	Incomplete	
W	Withdrawal	
CR	Credit for Advanced Placement	
TR	Credit for Previous Education	

Key to Transcript Symbols	
I	May need to repeat class
2	Class has been repeated
R	Class is currently being repeated
W	Repeat is waived

### Student Awards

Awards for outstanding achievement are presented to deserving students based on performance and faculty recommendations. Graduates find that these awards can be assets when they seek future employment. The Education Department can provide information regarding the specific awards presented.

### Graduation Requirements

Students on academic probation may qualify for graduation if, at the end of the probationary term, they meet the Satisfactory Academic Progress requirements.

To be eligible for graduation, students in allied health programs must:

- Complete all required classroom modules with a grade of at least 70 percent;
- Meet the grade requirements for the module components, if applicable
- Complete all the required externship hours; and
- Complete all program requirements.

---

---

## Satisfactory Academic Progress

### Requirements

To remain eligible for financial aid and maintain continued active enrollment, students must show satisfactory academic progress.

In order to maintain satisfactory academic progress, students in allied health programs must:

- Achieve a cumulative grade percent average (GPA) of at least 70 percent (on a scale of 0-100 percent) or be on academic probation;
- Progress at a satisfactory rate toward completion of their programs; and
- Complete the training program within 1 1/2 times the planned program length.

Students whose cumulative GPA falls below 70 percent in allied health or below 2.0 in technical programs are notified that they are being placed on academic probation, which will begin at the start of the next term. Students on academic probation are considered to be making satisfactory academic progress.

### Academic Probation

The initial probationary period covers the module or quarter that starts immediately after students have been placed on academic probation. Students remain eligible for financial aid during this period. They are required to repeat the failed module or courses during the probationary period unless the module or courses are not offered at that time. In that case, the failed module or courses must be repeated at the earliest possible date.

If, by the end of the probationary period, students achieve a cumulative GPA of at least 70 percent (allied health) or 2.0 (technical programs), they are notified that the probationary status is removed. If they have not achieved a cumulative GPA of at least 70 percent or 2.0, but have achieved a GPA of at least 70 percent or 2.0 for the probationary module, students may continue their training programs for a second probationary period. Students who do not achieve a GPA of 70 percent or 2.0 for the module may be withdrawn from training by the school.

Students who continue their training for a second probationary period will remain eligible for financial aid. If they achieve a cumulative GPA of at least 70 percent or 2.0 by the end of the second probationary period, they are informed that they have been removed from probation. Students who do not achieve a cumulative GPA of 70 percent or 2.0 may be withdrawn from training by the school.

### Reinstatement Policy

Students who have been terminated for failing to maintain satisfactory academic progress may be reinstated after one grading period by making a request for reinstatement in writing to the School President. However, if the reinstatement is granted, the student will not be eligible for financial aid during the reinstatement term. If the student achieves a cumulative GPA of at least 70 percent or 2.0 during the reinstatement term, the student will be considered to be making satisfactory academic progress and be eligible for financial aid consideration in subsequent terms.

### Incompletes

An "Incomplete" cannot be given as a final grade. However, at the end of the term students may, with the instructor's approval, be granted a maximum extension of 14 calendar days to complete the required class work, assignments and tests. The extension cannot be used to make up accrued absences from class.

---

---

If students do not complete the required class work, assignments and tests within the extension period, they will receive a failing grade of "F" or "zero" for the module or course. The "F" or "zero" will be averaged in with the students' other grades to determine the cumulative GPA.

### **Withdrawals**

To withdraw from a module or course, students must request approval from the instructor. Requests for withdrawal must then be approved by the department head and Academic Dean. Extreme academic or personal hardship is considered the only justification for withdrawal.

If a request for withdrawal is approved, the status of "Withdrawal" (W) is recorded but will not have an impact on the module/course grade or cumulative GPA. Withdrawal status remains on record until students complete the module or course from which they withdrew. It will have no effect on the module/course grade or cumulative GPA.

Students who are contemplating withdrawing from a module should be cautioned that:

- The entire scheduled length of the module or course of study they are currently enrolled in is counted in their maximum program completion time;
- They may have to wait for the appropriate module or course to be offered;
- They must repeat the entire module or course from which they elected to withdraw prior to receiving a final grade; and
- Financial aid and/or tuition costs may be affected.

### **Exit Interviews**

Students who want to discontinue their training for any reason are required to schedule an exit interview with a school official. This meeting can help the school correct any problems and may assist students with their plans. In many cases, the problem hindering successful completion of the educational objective can be resolved during an exit interview.

### **Repeat Policy**

Students who fail a module or course must retake that module or course. The failing grade will be averaged into their GPA at the end of the module or course and remain in effect until the module or course is repeated and a new grade is earned. Students may repeat a failed module or course only once. If repeating the training is required, the length of the program must not exceed 1 1/2 times the planned program length.

When students repeat a module or course, the last grade received for that module or course replaces the original grade on the transcript (even if the original grade was higher), and this new grade is used to calculate the cumulative GPA. The attendance for the repeated module or course will replace the attendance for the original module or course.

Students who receive a passing grade for a module or course, but wish to repeat the module or course may do so (subject to seat availability), but they may repeat a completed module or course only once.

NOTE: This campus does not permit students to make up absences that accrue on their attendance record during the classroom training; however, all absences accumulated during an externship must be made up so that the entire number of required hours is completed.

---

---

## **Maximum Program Completion Time**

Students are expected to complete their program within the defined maximum program completion time, which should not exceed 1 1/2 times the normal time frame. This campus defines the normal time frame as the length of time it would take a student to complete the total program credit hours/units according to the Enrollment Agreement.

In order to complete the training within the specified time, students must maintain a satisfactory rate of progress as defined below.

Students who have reached the halfway point of their maximum program completion time must have successfully completed 60 percent of the clock or credit hours/units attempted.

Students who have reached 75 percent of their maximum program completion time must have successfully completed 65 percent of the clock or credit hours/units attempted.

Measuring the rate of progress ensures that students will complete enough of the program at the end of each measurement point to finish the entire program within the maximum allowable time. The maximum completion time and satisfactory rate of progress for each program can be obtained from the Education Department.

If students exceed the maximum allowable program length or do not progress at a sufficient rate, their training program may be interrupted.

### **Externship Training**

Upon successful completion of all classroom requirements, students are expected to begin the externship portion of their program. The required number of externship clock and credit hours/units must be successfully completed within three months from the date students begin their externship. Students must complete at least 15 clock hours, but no more than 40 clock hours per week at an approved externship site. This campus recommends that students complete at least 20 clock hours per week. Students must make up absences that occur during the externship to ensure that the required extern hours are completed prior to graduation.

Students who interrupt their externship training for more than 10 days may be dropped from the program by the school. If a student has been officially dropped by the school, and permitted to re-enter the program, the time elapsed is not included in the calculation of the student's maximum program completion time.

Students who will not complete their externship training within the required three-month completion time will also be dropped from the program by the school. Students who have been dropped may appeal their termination if extenuating circumstances have occurred near the end of the externship that make it impractical to complete the training within the required completion time. Extenuating circumstances include prolonged illness or accident, death in the family, or other events that make it impractical to complete the externship within the required completion time. Student appeals must include written documentation of the extenuating circumstances, submitted to the education director and approved by the school president. Students may only be reinstated once due to extenuating circumstances.

### **Additional Information on Satisfactory Academic Progress**

Additional information on satisfactory academic progress and its application to specific circumstances is available upon request from the education director.

---

---

## **Student Appeal Process**

Students are required to adhere to all of the policies and procedures of the school. Students who have been terminated for violating school policy and procedures may seek reentry by following the appeals process.

Students whose training programs are terminated by the school will be informed of the right to appeal that decision. Students must initiate the process within three school days or as soon as reasonably practicable as determined by school administration. Students must initiate the process by submitting a written request for readmittance to the school president. The written request must address the reason(s) for termination and make a substantial showing of good cause to justify readmission.

Students will not be entitled to appeal if they are terminated for exceeding the maximum program completion time.

## **Required Study Time**

In order to complete the required class assignments, students are expected to spend outside time studying. The amount of time will vary according to individual student abilities. Students are responsible for reading all study materials issued by their instructors and must turn in assignments at the designated time.

## **Unit of Credit**

### **Academic**

A clock hour is a class period of 50 to 60 minutes of instruction. Clock hours are converted into credit units to allow for comparison with other postsecondary schools. Students earn one quarter credit unit for each 10 clock hours of lecture, 20 hours of laboratory or 30 hours of externship.

### **Financial Aid**

Students may be awarded financial assistance, if eligible, based on the number of financial aid credit units they will earn. For certain educational programs, the U.S. Department of Education requires that students earn one financial aid credit unit for each 20 contact hours of instruction.

This requirement does not apply to all programs. Students should contact the Financial Aid Department for information regarding their program of study.

## **Class Size**

To provide meaningful instruction and training, classes are limited in size. Standard lecture classes average 25 students. The maximum class size is 30 students.

Laboratory classes enable students to receive hands-on training using equipment similar to that used by business and industry. To ensure that students receive the necessary time and attention to build experience and confidence, the student-teacher ratio for laboratory classes is a maximum of 30:1.

---

---

## **Attendance Requirements**

Regular attendance and punctuality will help students develop good habits necessary for successful careers. Satisfactory attendance is established when students are present in the assigned classroom for the scheduled amount of time.

Students who miss more than 20 percent of the total classroom hours scheduled for the program may be dropped. Absences may include tardiness or early departures. (See Tardiness/Early Departure policy.) Students who are not in attendance for at least 51 percent of the scheduled class time will be considered absent for the day. Students who have been absent from all of their scheduled classes for 10 consecutive school days may be dropped from the training program.

Students who miss 15 percent of the total classroom hours will be advised that they are at risk of being dropped from the program. Students who miss 20 percent of the total classroom hours will be advised that they may be terminated from the program. If terminated, students must successfully appeal their termination within three school days in order to continue their training without interruption. (See Student Appeal Policy.) If their termination is not successfully appealed, they will remain dropped from the program.

Students are not permitted to make up absences for the classroom-training portion of their program. However students must make up absences that occur during the externship to ensure that the required extern hours are completed prior to graduation.

Students are encouraged to schedule medical, dental or other personal appointments after school hours. If a student finds that he/she will unavoidably absent, he/she should notify the school.

### **Tardiness/Early Departure**

Students who arrive for class after the scheduled start time will receive a tardy on their attendance record. Students who depart from class before the scheduled completion time will receive an early departure on their attendance record. Students who accumulate a total of four tardies and/or early departures will accrue one day of absence on their attendance record.

### **Reentry Policy**

Students must strive for perfect attendance. We understand that there are extenuating circumstances that may cause a student to violate the attendance policy. Upon a showing of good cause through the appeals process, a student may apply for reentry to the school.

Students who are to be terminated for violating the attendance policy may apply for reentry to the school through the appeals process. (See Student Appeals Process policy.) Students reentered after violating the attendance policy may not be absent more than 20 percent of the total of the remaining classroom hours. Normally approval for reentry will be granted only once. However, in those instances where extenuating circumstances exist, a student may be allowed to reenter more than once with appropriate documentation and the approval of the School President.

### **Make-up Work**

Students are required to make up all assignments and work missed as a result of absence. The instructor may assign additional outside make-up work to be completed for each absence. Arrangements to take any tests missed because of an absence must be made with the instructor and approved by the school administration.

---

---

## **Leave of Absence Policy**

The institution permits students to request a leave of absence (LOA) for up to 180 days during any 12-month period if there are legitimate extenuating circumstances that require the students to interrupt their education.

In order for a student to be granted an LOA, the student must provide the School President, Education Director, or Department Chair with a written request, prior to the leave of absence, outlining the reasons for the LOA request and the date the student expects to return to school.

If the leave of absence request is approved by the institution, a copy of the request – dated and signed by both parties, along with other necessary supporting documentation – will be placed in the student's file.

### **Re-admission Following a Leave of Absence**

Upon the student's return from an LOA, the student will be permitted to complete the coursework begun prior to the leave of absence.

The institution will make every attempt to ensure that students can re-enter at the point at which their education was interrupted and will enable them to complete the coursework begun prior to the leave of absence request. However, if the institution recognizes that it will be unable to assure that a student can re-enter and complete the assignments begun prior to the leave of absence, the student's request for an LOA will be denied.

### **Failure to Return from a Leave of Absence**

A student who fails to return from an LOA on or before the date indicated in the written request will be terminated from the program, and the institution will invoke the Cancellation/Refund Policy.

The student's last date of attendance prior to the approved leave of absence will be used in order to determine the amount of funds the institution earned and make any refunds which may be required (See Cancellation/Refund Policy).

### **Effects of Leave of Absence on Satisfactory Academic Progress**

Students who are contemplating a leave of absence should be cautioned that one or more of the following factors may affect their eligibility to graduate within the maximum program completion time:

- Students returning from a leave of absence are not guaranteed that the module required to maintain the normal progression in their training program will be available at the time of re-entry.
- They may have to wait for the appropriate module to be offered.
- They may be required to repeat the entire module from which they elected to withdraw prior to receiving a final grade.
- Financial aid and/or tuition costs may be affected.

### **Weather Emergencies**

The school reserves the right to close during weather emergencies or other "acts of God." Under these conditions, students will not be considered absent. Instructors will cover any missed material to ensure completion of the entire program.

---

---

## **Clothing and Personal Property**

All personal property is the sole responsibility of the student, and the school does not assume liability for any loss or damage. Clothing and other small items should be marked clearly with the student's name and address. Vehicles should always be locked to avoid theft.

## **Code of Conduct**

### **Background**

Bryman Institute maintains professional level standards for conduct and behavior for all students. The standards of conduct for students are patterned after those of professional employees in the workplace. Students are expected to observe campus policies and behave in a manner that is a credit to the campus and to themselves. Certain violations of the Student Conduct Code, as outlined in this policy, shall result in immediate dismissal. Other violations are subject to a progressive disciplinary action, where the student is advised and given every opportunity to change his or her behavior to meet the expectations of the Institute and to prepare for what the student might later expect to find in a professional level work environment. The Institute maintains the right to discipline students found in violation of Bryman Institute policies.

Students are subject to the Student Conduct Code while participating in any program externship, clinical rotation, or other Institute-related activity.

### **Student Conduct Code**

Students must show respect towards and be cooperative with Institute faculty and staff during the performance of their duties, as well as show respect for fellow students and campus visitors.

Examples of conduct which may result in disciplinary action include, but are not limited to, behavior that is disruptive, intimidating, dishonest, or discourteous; and destruction, theft, or other misuse of Institute property.

Violations that threaten the health and safety of campus employees, other students, or visitors shall result in immediate dismissal from the Institute. Violations which warrant immediate dismissal include, but are not limited to: threatening the safety of others; possessing alcohol, drugs, dangerous weapons, or other foreign substances on campus; theft; vandalism or misuse of the Institute or another's property; or harassment or intimidation of others. Students dismissed for the reasons outlined above will not be allowed back on campus property without express permission of the Campus President or a designated Bryman Institute official

### **Student Conduct Code Violations/Formal Disciplinary Procedure**

If the Institute has reason to believe that a student has violated the Student Conduct Code, the Institute shall conduct an investigation and follow up with the student in the appropriate manner.

Violations that threaten the health and safety of campus employees, other students, or visitors shall result in immediate dismissal from the Institute.

Other Student Conduct violations shall be governed by a progressive disciplinary procedure. For isolated, minor Student Conduct Code violations, the Institute may decide to conduct academic advising and issue a verbal reminder of the Student Conduct Code, or to provide the student with written notice, as the Institute deems appropriate. The Institute may also decide to suspend or place a student on probation for a specified period of time, pending a full investigation of Student Conduct Code violations or as a form of corrective action short of dismissal from the Institute.

- 
- **First Offense** - A written warning. The student shall receive a letter which describes the specific examples of the student's misconduct and the consequences if further violations occur.
  - **Second Offense** - Student dismissal. Each student dismissed shall receive a dismissal letter from the campus, stating the reasons for dismissal and any applicable appeals procedures.
  - **Threats to Health/Safety** - Immediate dismissal with dismissal letter

## Appeals

Students dismissed for violations of the Student Conduct Code may appeal the dismissal by submitting a letter to the Campus President stating the reason the student should be allowed to return to school. The President's decision on the appeal shall be considered final.

## Alcohol and Substance Abuse Statement

The school does not permit or condone the use or possession of marijuana, alcohol, or any other illegal drug, narcotic, or controlled substance by students or employees. Possession of these substances on campus is cause for dismissal.

## Dress Code

A clean, neat appearance will help students develop appropriate dress habits for new careers. Employers may visit the campus to interview students for jobs and to give guest lectures, so it is important that the student body convey a professional image at all times.

Dress and grooming should be appropriate for the area of study. Because a variety of business and industrial equipment is used during training, certain items of clothing - such as shorts and open shoes - are not acceptable for obvious safety reasons.

Students may have limited funds, so wardrobes need not be expensive or extensive - simply in good taste. Students should review the established dress and appearance guidelines for details. This information will be available upon enrollment.

Students dressed inappropriately will not be admitted to school. Those who continually disregard the dress code will be warned and, if necessary, disciplinary action will be taken.

## Allied Health Programs

Students enrolled in allied health programs are required to wear the standard medical uniform and shoes with a closed heel and toe as described in the school's dress code policy. Uniforms are not included in the tuition price and should be ordered as soon as possible after acceptance into the program. Students should review the established dress and appearance guidelines for details. This information will be available upon enrollment.

## Academic Advisement and Tutoring

Students' educational objectives, grades, attendance and conduct are reviewed on a regular basis. Students will be notified if their academic standing or conduct is unacceptable. Failure to improve academic standing or behavior may result in further action. Tutorial programs and academic advisement are provided for students who are experiencing difficulties with their classwork. Students are encouraged to seek academic assistance through the Education Department.

---

---

## **Disabled Students**

Disabled students should make arrangements to meet with the school president prior to the start of class to review facilities and required accommodations.

## **Health/Medical Care**

Students must take proper care of their health so that they can do their best in school. This means regular hours, plenty of sleep, sufficient exercise and nutritious food. Students who become seriously ill or contract a communicable disease should stay home and recover, but remember to notify the school immediately. All medical and dental appointments should be made for after school hours.

The school will not be responsible for rendering any medical assistance, but will refer students to the proper medical facility upon request.

## **Termination Procedures**

Students may be terminated by the school for cause. Examples include, but are not limited to, the following:

- Violation of the school's attendance policy.
- Failure to maintain satisfactory academic progress.
- Violation of personal conduct standards.
- Inability to meet financial obligations to the school.

Students to be terminated are notified in writing and may appeal to the school president.

---

---

## **Transferability of Credits**

The school president's office provides information on schools that may accept this campus' course credits toward their programs. However, this school does not guarantee transferability of credits to any other school, university or institution, and it should not be assumed that any courses or programs described in this catalog can be transferred to another institution. Any decision on the comparability, appropriateness and applicability of credits and whether they may be accepted is the decision of the receiving institution.

## **Transcripts and Diplomas**

All student academic records are retained, secured, and disposed of in accordance with local, state, and federal regulations. All student record information is maintained on the Institute computer system. Permanent records are kept in paper form, microfiche or microfilm. The Institute maintains complete records for each student that includes grades, attendance, prior education and training, and awards received.

Student academic transcripts, which include grades, are available upon written request by the student. Student records may only be released to the student or his/her designee as directed by the Family Educational Rights and Privacy Act of 1974.

Transcript and diploma requests must be made in writing to the Office of the Registrar. Official transcripts will be released to students who are current with their financial obligation (i.e. Tuition and fees due to the Institute are paid current per the student's financial agreement). Diplomas will be released to students who are current with their financial obligation upon completion of their school program.

Students are provided an official transcript free of charge upon completing graduation requirements as stated in the previous paragraph. There is a fee of \$5 for each additional official transcript requested. Normal processing time for transcript preparation is approximately three to five days.

## **Family Educational Rights and Privacy Act**

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the Institution receives a request for access. Students should submit to the Institution President written requests that identify the record(s) they wish to inspect. The Institution official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Institution official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students may ask the Institution to amend a record that they believe is inaccurate or misleading. They should write the Institution official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the Institution decides not to amend the record as requested by the student, the Institution will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- 
- 
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to institution officials with legitimate educational interests. An institution official is a person employed by the Institution in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the Institution has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another institution official in performing his or her tasks. An institution official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the Institution discloses education records without consent to officials of another institution in which a student seeks or intends to enroll.

Directory information is information that may be unconditionally released to third parties by the school without the consent of the student unless the student specifically requests that the information not be released. The school requires students to present such requests in writing within 10 days of the date of enrollment. Directory information includes the student's name, address(es), telephone number(s), birth date and place, program undertaken, dates of attendance and certificate or diploma awarded.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the Institution to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office  
Department of Education  
600 Independence Avenue, SW  
Washington, DC 20202-4605

Additional FERPA information is available from the Institution's Business Office.

## **Student Complaint/Grievance Procedure**

Persons seeking to resolve problems or complaints should first contact their instructor. Unresolved complaints should be made to the education director. Students who feel that the complaint has not been adequately addressed should contact the School President. Written responses will be given to the student within seven working days. If the problem remains unresolved, students may contact the Student Help Line at (800) 874-0255.

This school is licensed by the Massachusetts Department of Education, Office of Proprietary Schools. Any comments, questions, or concerns should be directed to [proprietaryschools@doe.mass.edu](mailto:proprietaryschools@doe.mass.edu) or 7781.338.6048.

## **Policy and Program Changes**

The school catalog is current as of the time of printing. CSI reserves the right to make changes in organizational structure, policy and procedures as circumstances dictate. This campus reserves the right to make changes in equipment and materials and modify curriculum as it deems necessary. When size and curriculum permit, classes may be combined to provide meaningful instruction and training and contribute to the level of interaction among students. Students are expected to be familiar with the information presented in this school catalog.

## Financial Information

### Tuition and Fees

The Enrollment Agreement obligates the student and the school for the entire program of instruction. Students' financial obligations will be calculated in accordance with the refund policy in the contract and this school catalog. Each program consists of the number of terms listed below. The content and schedule for the programs and academic terms are described in this catalog.

Program	Program Length	Credit Units	Textbooks and Equipment (Estimated)	Tuition
Massage Therapy	9 Modules	57	\$1020	\$11,025
Medical Assisting	8 Modules	47	\$550	\$10,375
Pharmacy Technician	8 Modules	58	\$405	\$10,375

Students may make payments using VISA, MasterCard, or Discover cards.

### Additional Fees and Expenses

Charges for textbooks and equipment are separate from tuition. The institution does not charge for books and equipment until the student purchases and receives the items. Incidental supplies, such as paper and pencils, are to be furnished by students.

### Voluntary Prepayment Plan

The school provides a voluntary prepayment plan to students and their families to help reduce the balance due upon entry. Details are available upon request from the Financial Aid Office.

### Cancellation and Refund Policy

This institution employs a fair and equitable refund policy that complies with federal, state, and accrediting guidelines for the return of unearned tuition and fees in the event of cancellation, termination or withdrawal.

Detailed below are the specific federal, state and institutional refund policies and procedures that will be used to ensure that the institution retains only funds that have been earned according to the applicable refund policy. In the event that a refund is required, these policies will ensure that any and all refunds are paid to the appropriate entity in a timely fashion.

### Cancellations

When students enroll in a program of study, they reserve places that cannot be made available to other students. The Enrollment Agreement does not constitute a contract until it has been approved by an official of the school. If the agreement is not accepted by the school, all monies paid will be refunded. Students have the right to cancel at any time. Cancellation will occur when they give written notice of cancellation at the school address shown on the front page of the Enrollment Agreement. A signed and dated notice of cancellation may be given by mail, hand delivery or telegram. The notice of cancellation, if sent by mail, is effective when deposited in the mail, properly addressed with postage prepaid.

---

The written notice of cancellation need not take any particular form and, however expressed, is effective if it states that a student no longer wishes to be bound by the Enrollment Agreement. Students who cancel their Enrollment Agreement will receive a refund of all monies paid within 30 days of cancellation.

If a student obtains equipment specified on the Enrollment Agreement as a separate charge, and returns it in good condition – allowing for reasonable wear and tear – within 30 days following the date of student cancellation, the school will refund the equipment cost paid by the student. If the student fails to return the equipment within the 30-day period, the school may retain the equipment cost paid by the student. The school will refund the portion of the proceeds exceeding the documented cost of the equipment within 30 days following the equipment return period. The student may retain the equipment without further financial obligation to the school.

Students who have not visited the school prior to enrollment may withdraw without penalty following either the regularly scheduled orientation procedures or a tour of the school and inspection of the equipment.

### **Refunds**

This institution will be certified by the U.S. Department of Education as an eligible participant in the federal student financial aid (SFA) programs established under the Higher Education Act of 1965 (HEA), as amended.

To calculate refunds under the Federal Return of Title IV Funds policy, institutions must complete two separate calculations. First, the institution must determine how much of the tuition, fees and other institutional charges it is eligible to retain using either the state or institutional refund policy. Then using the Federal Return of Title IV Funds policy, the institution determines how much federal assistance the student has earned which can be applied to the institutional charges.

If the student received more SFA funds than he or she earned under the Federal Return of Title IV Funds policy, the institution, and in some cases the student, is required to return the unearned funds to the Federal Treasury. Any unpaid balance that remains after the Return of Title IV Funds policy has been applied to the state or institutional must be paid by the student to the institution.

### **Refund Policies**

Any monies due applicants or students will be refunded within 30 days of cancellation, withdrawal, or termination. A withdrawal is considered to have occurred on the earlier of a) the date the student officially notifies the school of their intent to withdraw, or b) the point at which the student fails to meet the published attendance policies outlined in the school catalog. If a student has received a loan for tuition, a refund will be made to the lender to reduce the student's loan debt. If the amount of refund exceeds the unpaid balance of the loan, the remainder of the monies will be applied to any student financial aid programs from which the student received funding. Any remaining balance of funds will then be returned to the student. The refund computation will be based on the last date of student attendance.

If students do not return following a leave of absence on the date indicated on the approved written request, refunds will be made within 30 days from the date the student was scheduled to have returned. For purposes of determining a refund, the last date of attendance is used when a student fails to return from an approved leave of absence.

---

---

In case of prolonged illness or accident, death in the family, or other circumstances that make it impractical to complete the program, the school will make a settlement that is reasonable and fair to both parties.

#### **Textbook and Equipment Return/Refund Policy**

If the student obtains and returns unmarked textbooks, unworn uniforms or unused equipment within 30 days following the date of the student's cancellation, withdrawal or termination, the institution shall refund the charge for the textbooks, uniforms or equipment paid by the student. If the student fails to return unmarked textbooks, unworn uniforms or unused equipment within 30 days following the date of the student's cancellation, withdrawal or termination, the student will be liable for the documented textbook, uniform or equipment charges.

#### **Federal Return of Title IV Funds Policy**

All institutions participating in the SFA programs are required to use a pro-rata schedule to determine the amount of SFA funds the student had earned when he or she ceases to attend, which is based on the period of time the student was in attendance.

If a recipient of the SFA Program withdraws from the institution during a payment period or a period of enrollment in which the recipient began attendance the institution must calculate the amount of SFA program assistance the student did not earn, and those funds must be returned. Up through the 60% point in each payment period or period of enrollment, a pro-rata schedule is used to determine how much SFA Program funds the student has earned at the time of withdrawal. After the 60% point in the payment period or period of enrollment, a student has earned 100% of the SFA funds.

The percentage of the payment period or period of enrollment completed is the total number of calendar days\* in the payment period or period of enrollment for which the assistance is awarded divided into the number of calendar days\* completed in that period as of the last date of attendance.

\*Scheduled breaks of at least five consecutive days are excluded from the total number of calendar days in a payment period or period of enrollment (denominator) and the number of calendar days completed in that period (numerator). Days in which a student was on an approved leave of absence are also excluded in the calendar days for the payment period or period of enrollment.

#### **Return of Unearned SFA Program Funds**

The School must return the lesser of:

- The amount of SFA program funds that the student did not earn; or
- The amount of institutional costs that the student incurred for the payment period or period of enrollment multiplied by the percentage of funds that were not earned.

The student (or parent, if a Federal PLUS loan) must return or repay, as appropriate:

- Any SFA loan funds in accordance with the terms of the loan; and
- The remaining unearned SFA program grant (not to exceed 50% of a grant) as an overpayment of the grant.

(Note: The student (parent) must make satisfactory arrangements with the U.S. Department of Education and/or the School to repay any outstanding balances owed by the student. However, there are a number of repayment plans that are available to assist the student in meeting repayment obligations. The Student Financial Aid Department will counsel the student in the event that a student repayment obligation exists. The individual might be ineligible to receive additional student financial assistance in the future if the financial obligations(s) are not satisfied.)

---

---

### **Remittance to the Federal Government**

If it is determined that a federal refund is due, the statute and the regulations clearly define the order in which remaining federal student financial aid program funds are to be returned. Based on the student's financial aid award(s) (or his or her parents(s) in the case of PLUS Loans) the return of federal funds will be remitted to the appropriate program in the following order:

1. Unsubsidized Federal Stafford Loan Program;
2. Subsidized Stafford Loan Program;
3. Unsubsidized Federal Direct Stafford Loan Program;
4. Subsidized Federal Direct Stafford Loan Program;
5. Federal Perkins Loan Programs;
6. Federal PLUS Loan Program;
7. Federal Direct PLUS Loan Program;
8. Federal Pell Grant Program;
9. Federal Supplemental Educational Opportunity Grant (FSEOG) Program;

### **Institutional Refund Calculation**

For students attending this campus who terminate their training before completing more than 60 percent of an enrollment period, the school will perform a pro rata refund calculation.

Under a pro rata refund calculation, the school is entitled to retain only the percentage of school charges (tuition, fees, room, board, etc.) proportional to the period of enrollment completed by the student.

The period of enrollment completed by the student is calculated by dividing the total number of weeks in the enrollment period into the number of weeks completed in that period (as of the last recorded day of attendance by the student).

The percentage of weeks attended is rounded up to the nearest 10 percent and multiplied by the school charges for the period of enrollment. A reasonable administrative fee not to exceed \$100 or 5% of the total institutional charges, whichever is less, will be excluded from the institutional charges used to calculate the pro rata refund.

The school may retain the entire contract price of the period of enrollment - including tuition, fees and other charges - if the student terminates the training after completing more than 60 percent of the enrollment period.

### **State Refund Policy (As per M.G.L. Chapter 255, Section 13K)**

1. You may terminate this agreement at any time.
2. If you terminate this agreement within five days you will receive a refund of all monies paid, provided that you have not commenced the program.
3. If you subsequently terminate this agreement prior to the commencement of the program, you will receive a refund of all monies paid less the actual reasonable administrative costs described in paragraph 7.
4. If you terminate this agreement during the first quarter of the program, you will receive a refund of at least seventy-five percent of the tuition, less the actual reasonable administrative costs described in paragraph 7.
5. If you terminate this agreement during the second quarter of the program, you will receive a refund of at least fifty percent of the tuition, less the actual reasonable administrative costs described in paragraph 7.

- 
6. If you terminate this agreement during the third quarter of the program, you will receive a refund of at least twenty-five percent of the tuition, less the actual reasonable administrative costs described in paragraph 7.
  7. If you terminate this agreement after the initial five day period you will be responsible for actual reasonable administrative costs incurred by the school to enroll you and to process your application, which administrative costs shall not exceed fifty dollars or five percent of the contract price, whichever is less. Bryan Institute does not charge administrative costs.
  8. If you wish to terminate this agreement, you must inform the school in writing of your termination, which will become effective on the day such writing is mailed.
  9. The school is not obligated to provide any refund if you terminate this agreement during the fourth quarter of the program.

#### **Application of Policy**

- a) In the event that a student withdraws or is terminated from any program that gives the student his/her equipment to keep as they progress through school, any equipment already issued will remain the student's property. However, any other equipment scheduled to be issued during the remainder of the program will not be issued.
- b) All refunds will be made to the person, company, organization, or agency that paid the student's tuition unless the school is authorized in writing to take other action.

#### **Financial Assistance**

This Campus offers students several options for payment of tuition. Those able to pay tuition are given a plan to help reduce their fees upon entry. On the other hand, the school recognizes that many students lack the resources to begin their educational training. The campus participates in several types of financial aid programs, most of which are based on financial need.

Students seeking financial assistance must first complete an application for student aid. The school's financial aid representative uses this form to determine students' needs and assist them in deciding what resources are best suited to their circumstances.

If students withdraw from school, an adjustment in the amount they owe may be made, subject to the refund policy of the school. If they received financial aid in excess of what they owe the institution, these funds must be restored to the fund or to the lender.

The following are descriptions of the financial aid programs available at this school. Additional information can be obtained through the Financial Aid Office. Information regarding benefits available from the Bureau of Indian Affairs or the Vocational Rehabilitation Program can be obtained through those agencies. This Campus does not currently participate in Title IV Financial Aid programs.

#### **Sallie Mae Alternative Loan Program (SLM)**

SLM Financial provides a customized loan program to qualified applicants that will offer borrowers financing for their educational costs. All applicants must complete a SLM loan application during their financial aid interview.

#### **Student Tuition Assistance Resource Loan (STAR Loan)**

Students who do not qualify for the Sallie Mae Alternative Loan Program may be eligible to borrow up to fifty percent of their tuition costs through the STAR Loan program. The STAR Loan is not available for full tuition financing. Students must have a primary source of tuition funding to be eligible for this plan.

---

## **Student Services**

### **Placement Assistance**

The school encourages students to maintain satisfactory attendance, conduct and academic progress so they may be viewed favorably by prospective employers. While the school cannot guarantee employment, it has been successful in placing the majority of its graduates in their field of training. All graduating students participate in the following placement assistance activities:

- Preparation of resumes and letters of introduction - an important step in a well-planned job search.
- Interviewing techniques. Students acquire effective interviewing skills through practice exercises.
- Job referral by Placement Department. The Placement Department compiles job openings from employers in the area.

All students are expected to participate in the placement assistance program and failure to do so may jeopardize these privileges. Graduates may continue to utilize the school's placement assistance program at no additional cost.

### **Student Activities**

Throughout the school year, activities that encourage school spirit and develop student leadership may be offered. The school believes that participation in these activities is an important part of the educational process, and student involvement is encouraged.

### **Housing Assistance**

Although the school does not maintain dormitory facilities, students who are relocating and must arrange their own housing may request additional assistance.

### **Transportation Assistance**

The school maintains information on public transportation.

### **Field Trips**

This campus believes that training is enriched by observing real-life applications. When appropriate, visits are arranged to industrial or professional locations.

### **Special Lectures**

Guest lecturers are invited to speak to students about career opportunities and current industry applications of educational programs.

### **Drug Abuse Prevention**

Information on drug abuse prevention is available at the school for all students and employees.

### **Advising**

The school provides advising to students on issues involving education and academics. For personal problems that may require professional advising or counseling, the school has information available on community resources that address these types of problems.
